Construct Build Renovate

CONSTRUCT BUILD RENOVATE

Sustainability statement

2016

CBR Qld has a range of policies in place to minimize the impact of our day to day work on the environment.

Examples of this are:-

- Recycling materials removed from site, recycle office waste—shredding any confidential information first
- Computer equipment on economic standby when not in use, lights and power points turned off when not in use
- Ensuring water is used sparingly on site - using tank water at the office for washing machinery, vehicles and general cleaning
- Suppliers, products and materials used - looking at the carbon imprint by using local suppliers and ordering only what is needed so no wastage
- Reducing pollution by minimizing vehicle traffic to worksites.
- We use email, scanning, online ATO and Super systems, Online workloads from work suppliers and internet banking - moving towards a paperless office and reducing the carbon imprint.
- We lead and influence our team by example by implementing these sustainability actions
- We continue to identify and implement alternative business practices to minimize environmental and carbon footprint
- We achieve our objectives and implementing actions in the following areas: energy, waste, water, office and sites, administration and we do this by working together, respecting the environment and making responsible decisions with regards to the above examples.

Responsibility and Accountability falls on the Directors of Certus Building Services ATF RJJR Family Trust Trading as CBR QLD, all employees, sub-contractors and administration staff and is managed by the Directors.
